23-11-2016 Statement of the WP29 on automatic inter-state exchanges of personal data for tax purposes - wp230

ARTICLE29 Newsroom - News overview - European Commission

Software-defined radio (SDR) is a radio communication system where components that have been traditionally implemented in hardware (e.g. mixers, filters, amplifiers, modulators/demodulators, detectors, etc.) are instead implemented by means of software on a personal computer or embedded system. While the concept of SDR is not new, the rapidly evolving capabilities of digital electronics render ...

The utilization of SM for communicating during emergencies was initiated by the public before its utilization by emergency authorities. It is possible that the way emergencies are managed and the uni-directional communication coerced the public to find alternate ways to search and publish relevant and updated information concerning the event (Sutton, Palen, & Shklovski, 2008).
