@music2myear Sort of... I'm thinking of publishing an ebook and want to include a spreadsheet (with macros) as part of the purchase. Rather than going through a huge fuss with the publisher about having unique download codes for each customer or something like that, I'd prefer to have the file included in the PDF that people buy.

@brettdj The object that I created called matrix is a 3-dimensions array with (3,3,3) dimensions. I want to sum each and every element in this matrix. Calling the function as funtest(2.1) is arbitrary with respect to 2.1. I just want to test if it works with any double. My actual problem is more complicated, but I'm trying to solve the simple case of a (3,3,3) matrix with each element equal to ...
