In computer networks, download means to receive data from a remote system, typically a server such as a web server, an FTP server, an email server, or other similar systems. This contrasts with uploading, where data is sent to a remote server. A download is a file offered for downloading or that has been downloaded, or the process of receiving such a file.

Making Music with ABC 2 I have written a manual that explains how to write music using ABC 2. It focuses on using abcm2ps, abc2svg, abcmidi, and the ABC/MusicXML translators, but most of the information it contains can be applied (at least to some extent) to all ABC applications. Many thanks to Norman Schmidt who helped me translate parts of the manual.
