The Decision Book: Fifty Models For Strategic Thinking (2000) About book: An exhaustive list of models but I only found a handful that could truly benefit me. Overall, it's a good/decent book that ultimately teaches us, through the many models presented, that it is well within our mental capabilities to structure the way we think into our own ...

In the future, decision-makers will work with prognosis tools (as described above) rather than with models. But there is a problem: decision-makers using such tools in the present do not understand what they are calculating. The formulas and models that explain the world are black boxes, understood by only a few experts.
